

REFLECTION GUIDE

After listening to **Mentoring Pre-Service Teachers (More Than Mentoring, Part 6)**, consider the following questions on your own or with a professional learning community.

Reflecting on pre-service experiences, what opportunities or experiences do you believe are essential for all pre-service teachers to engage in during their preparation program?

1

How do you incorporate reflective practice into the ways in which you show up for students and others that you might mentor?

2

In what ways do you celebrate student genius and use this information to enhance instruction?

3

How do you get to know and establish a collaborative and reflective relationship with colleagues and students in order to support them in deep and meaningful ways?

4

How do you envision mentoring strengthening the educator experience and sustainability? What steps can you take to make this vision a reality?
